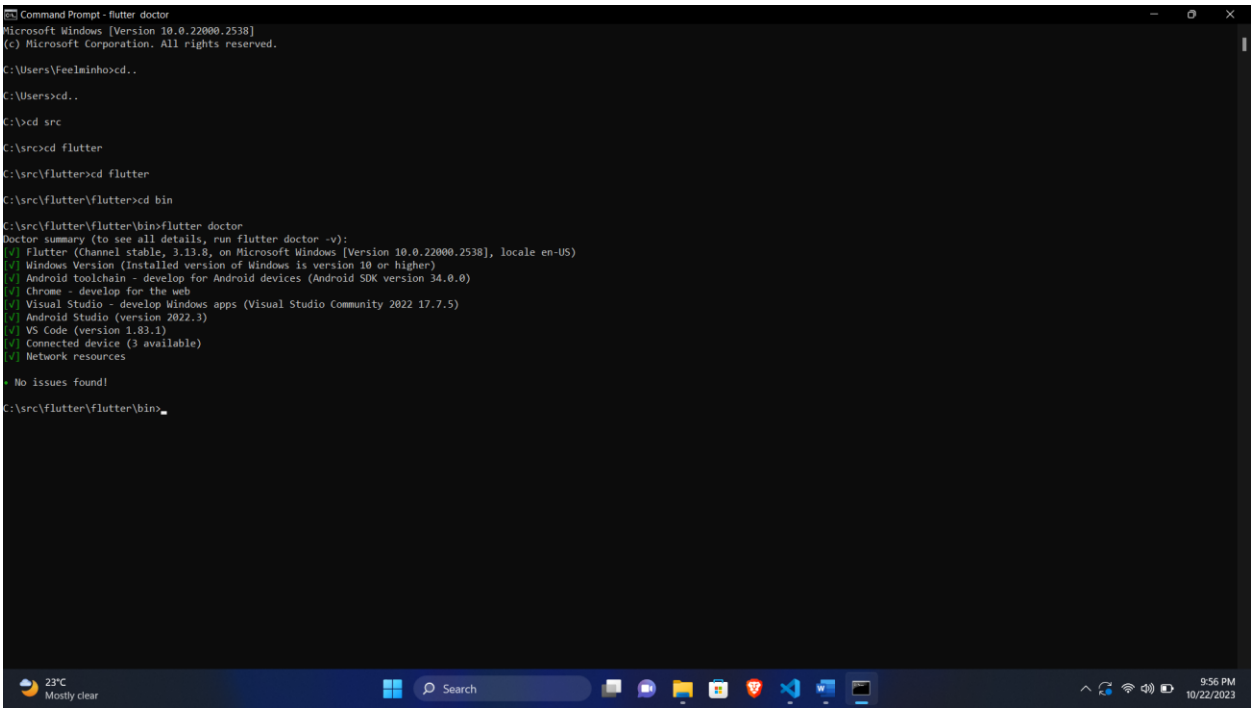
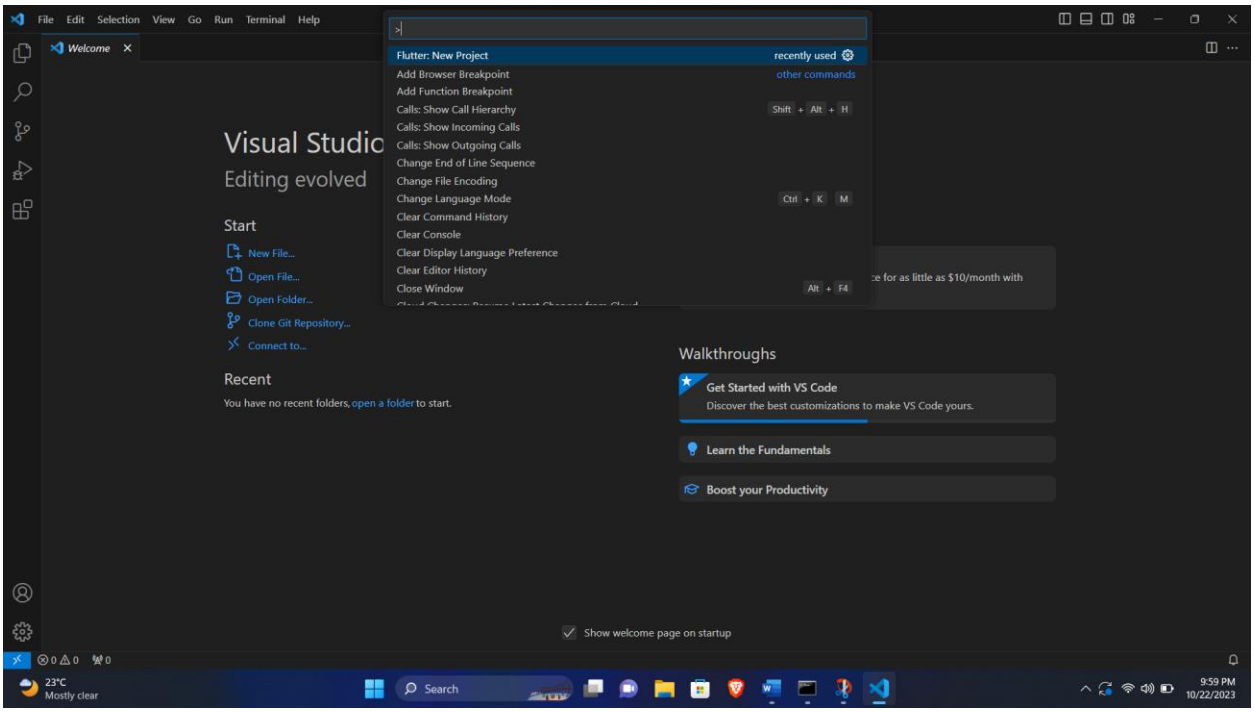
TP-SESSION-1

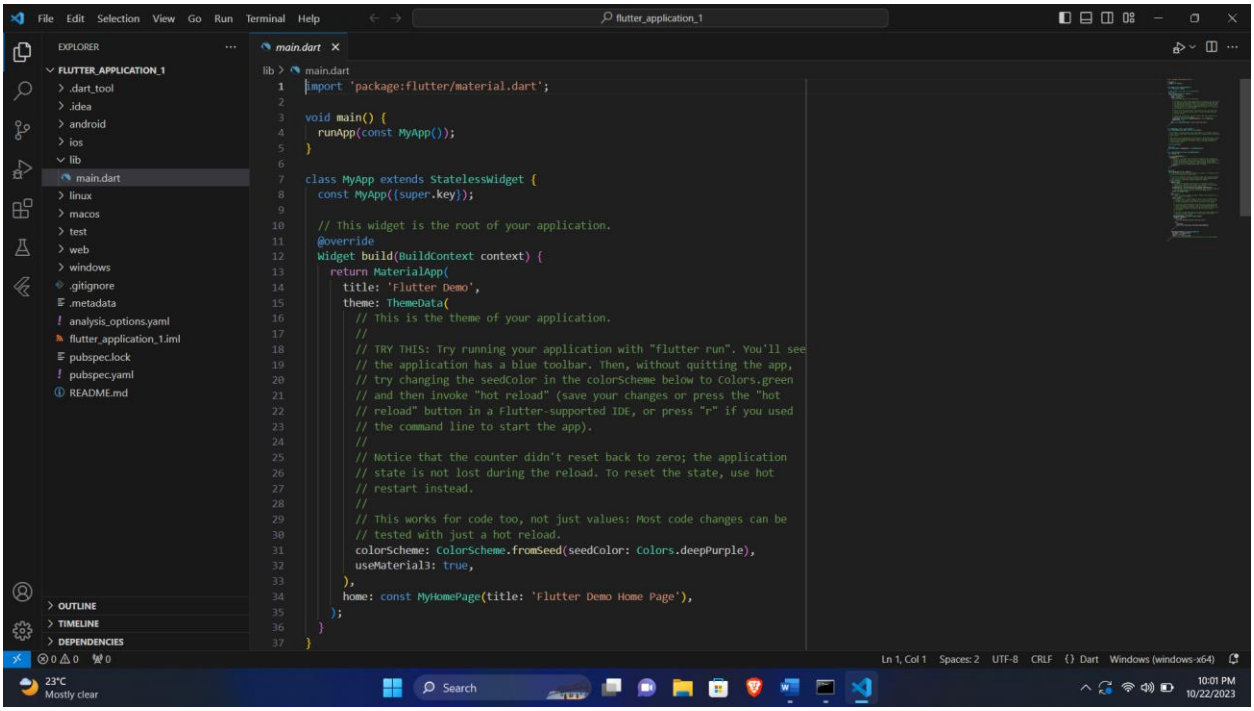
Lab session 1: Flutter Installation and UI Design using Flutter

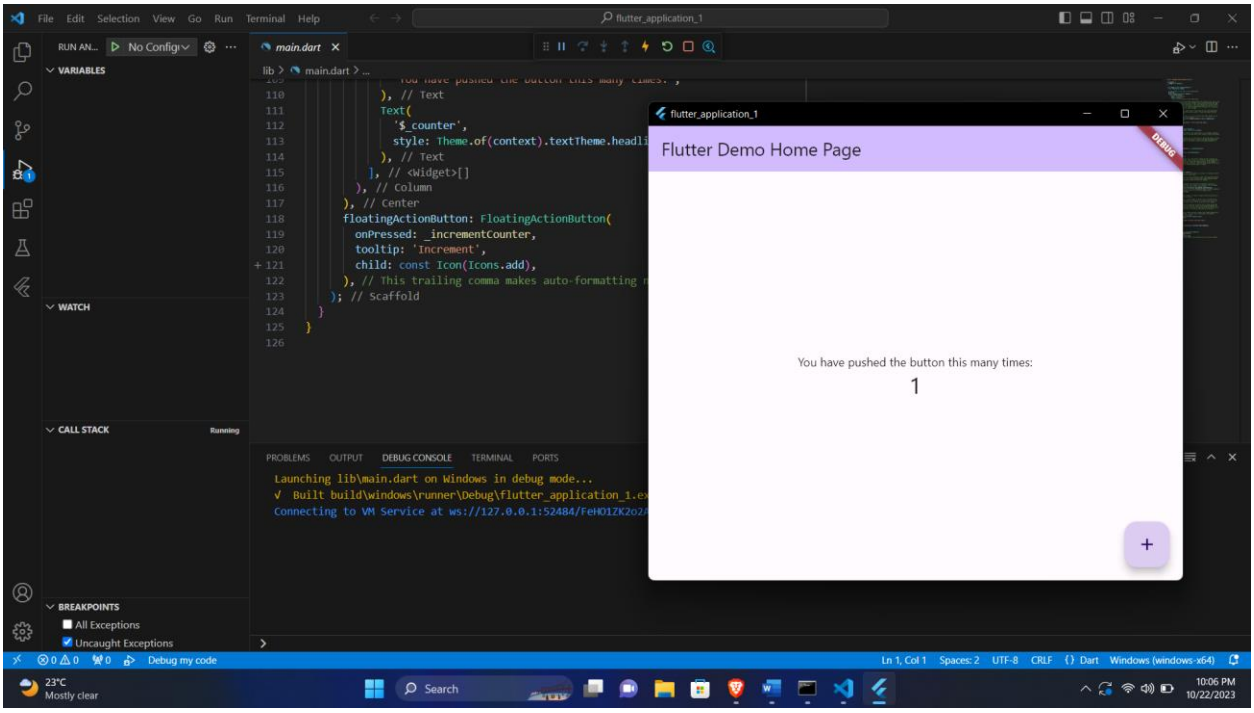
Task-1: C:\src\flutter\bin\Flutter doctor-v



Task-5: Create my first Flutter App in VSCode







Step-by-Step Guide:

1. **Create a New Flutter Project:**
    - **Open VSCode.**
    - **Click on "View" in the top menu and select "Command Palette" (or press Ctrl+Shift+P or Cmd+Shift+P on Mac).**
    - **In the Command Palette, type "Flutter: New Project" and select it from the dropdown.**
    - **Choose a directory where you want to create your project and provide a name for your project.**
    - **Start debugging by clicking the "Run and Debug" button or pressing F5.**
